

Dear Friends:

marieens@online.com.kh

January 2009

Another year has sped by. The other day I wrote in my prayer journal all the good things I could remember that happened in my life and at Place of Rescue in 2008. I got to 55 ending with "Best of all, I have grown closer to You my Lord Jesus. You have spoken to me and I have heard You." No wonder one of my current mottos is "OH WOW!!" May we all praise our Lord Jesus more and more in the coming year 2009. He is worthy!!

The main thing I would like to ask you to pray for now is this: On Jan. 14 I will be leaving Cambodia to spend two months in Canada, visiting family and touring.

Trakuan is my personal helper. I am so grateful for the way she looks after me. She will care for my house and look after the dogs while I am gone.

over BC, Abbotsford BC, Chilliwack BC, Maple Ridge BC, Squamish BC, Calgary AB, Millardville AB, Ardrie AB, Camrose AB, Edmonton AB, St. Albert AB, Saskatoon SK, Rosthern SK, Luseland SK, Regina SK, Morden MB, Brandon MB and Russell MB, Praise God for Blaine who will be travelling with me.

Rescue management committee, Sokhon, Sakhan, Khim and Sokthun would appreciate your prayers as they trust the Lord to give the needed wisdom, grace and love they need every day. They have the responsibility of 48 staff which includes teachers, AIDS centre care giver, house mothers, granny care givers, baby care givers, and yard workers who care for the 21 AIDS families and their 45 children, 134 orphans, 19 grannies and 2 pregnant girls. There is no way we would even think of doing this without knowing that Place of Rescue is the Lord's idea and He is the One in charge.

Please pray for more than 30 older teens that they may be the role models the little kids need.

Baby Sotheary still spends most of her days in the hospital (see Oct. letter on our website) We long for her healing!

Another AIDS baby, 10 month old Sri Ka, was in a coma for a month. She is awake and responsive now but may be brain damaged. Jesus can heal her!

Thida's two sisters are still not with us. We have no proof that they are being harmed so all we can do is to continue to watch and trust the Lord to protect them. Your prayers make a difference.

In addition to the orphanage and AIDS Centre, Rescue is also responsible for 20 – 30 people who visit each week at Preah Khet Melea Hospital. We also have 20 off site families that we are helping with things like rice, medicine and school supplies.

**Thank you for caring, praying and supporting us with your donations. Together we are fulfilling the Lord's dream to rescue many sad and lonely Cambodian people and bring them into His amazing LOVE. May you all know this LOVE in a greater and greater measure in 2009.**

In partnership with you, Marie, for all of us at Rescue
