

Home Again

It was wonderful to meet many of you friends while Blaine and I were on tour in Canada. We travelled from coast to coast telling the story of Rescue 90 times in as many days. The Lord's favor was on us. We were protected as we travelled by plane and car in all kinds of weather. He blessed us with good health even though we must have encountered every germ and virus in the country. From the little ones in kindergarten to the seniors in groups with interesting names like Keen-agers, Young at Heart and Up and Over, hearts were touched and people responded to help us and pray for us. Praise the Lord. It was good to return home and be welcomed with joy and love and good things to report..

Sarah

Sarah sits up and pulls herself along to reach a toy. Then she plays with it with her feet! Watch for a DVD coming on face book and website soon. We have a family from Alberta who would like to adopt her. Making this happen is an involved process. If it succeeds, it will be because the Lord takes charge of it. We desire that this precious baby will have the best chance in life to reach her full potential.

Dear friends, please care about the things you have just read. Please join us in prayer and support us as you are led. Rejoice with us in all the Lord has done.

For all of us at Rescue,
Marie Ens, Advisor

New Children

Place of Rescue I does not have much more room but we continue to receive precious jewels like 4 yr. old K. whose mommy passed away on April 25. Four days later K came to join her new family of 9 sisters and a kind house mother. It is touching to see how the children welcome and care for the new comers. By mid May we expect to have 10 children living in the first house at Place of Rescue III in Pailin. The staff will need much wisdom and grace as they begin this new venture.

English and Nursing Program

Thanks to Canadian English teachers who come to volunteer for at least 3 months, our English program is progressing well. Jennifer and Celsea left recently, Jessica will be here until mid May and Chris has just started. We are so grateful for their help. Is the Lord calling you to volunteer as an English teacher or a nurse? We will soon need a full time nurse to replace Anne who is doing a great job caring for our kids and grannies.

We are often asked what we need. We could use teen aged boy birthday gifts. Inexpensive is best.

House Mothers

Place of Rescue House mothers are truly amazing. They each care for their 10 children with love and responsibility. It can't be easy to look after these children 24/7 but they do it so well for the Lord. They deserve your admiration and prayer.

Clean Water

Last week water engineers came to assess our water problems. This week they will figure out a way to clean the water in one of our fish ponds so it can be used for bathing and washing clothes. Pray for the best solution at the best price. We have waited so long for this!

Border Fighting

Join us in prayer for a quick peaceful resolution to the problems on the Thai/Cambodian border. The fighting over ancient ruins at Preah Vehear has caused much disruption, death and injury. The fear and anxiety of families that have had to flee their homes is tragic.
